WELCOME

One team for *every opening*

Amsidel Doors & Windows is the building-products brand of Amsidel Enterprises Private Limited.

We bring uPVC, aluminium, WPC and steel systems together with a full range of interior and entrance doors, so homeowners, architects and builders deal with a single team for every door and window in a building.

- One survey
- One quotation
- One installation team
- One number to call

How it works

01 — Consult
Share your plan or photos. We suggest materials and styles for your space and budget.

02 — Measure
A free site visit to take precise measurements and check every opening.

03 — Make
Fabricated to size with the finish and glass you choose.

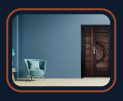

04 — Install
Fitted, sealed and tested by our own team, with a walkthrough at handover.

uPVC Doors & Windows

Quiet, sealed and low-maintenance

12 DESIGNS

Multi-chamber uPVC profiles with steel reinforcement and EPDM gaskets keep out dust, rain and street noise. They never need painting and stay true to shape through heat and monsoon.

- Lead-free, UV-stabilised profiles
- Sliding, casement, tilt-and-turn and fixed options
- Single or double-glazed units
- Multi-point locking hardware

IDEAL FOR

Apartments · Villas · Balconies · Bedrooms facing traffic

Aluminium Doors & Windows

Slim frames, wide views

17 DESIGNS

Powder-coated and anodised aluminium systems for large sliding doors, folding partitions and slim-line windows. Strong enough for big glass panels, light enough to glide.

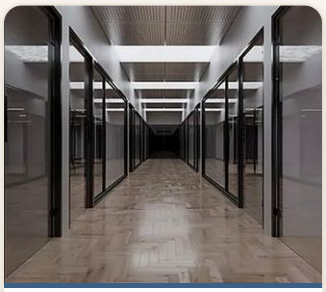

IDEAL FOR

- Living-room openings
- Shopfronts
- Offices
- Terraces

- Slim sight-lines for maximum glass
- Sliding, slide-and-fold and casement systems
- Powder-coat colours and wood-grain finishes
- Rust-free and long lasting

WPC Doors & Windows

The look of wood without the worry

19 DESIGNS

Wood-plastic composite doors, frames and windows that resist water, termites and borers. A solid, warm alternative to timber for bathrooms, kitchens and humid regions.

- 100% waterproof and termite-proof
- Will not swell, warp or rot
- Paint, laminate or veneer finishes
- Screw-holding strength close to hardwood

IDEAL FOR

Bathrooms · Kitchens · Coastal homes · Main and internal doors

Steel Doors & Windows

Strength you can see and feel

Galvanised steel doors with wood-finish transfer coatings, and pressed steel window frames that replace timber frames at a fraction of the upkeep. Built for security and decades of use.

- Galvanised, anti-corrosion steel
- Honeycomb or PUF-filled core
- Multi-point locks and concealed hinges
- Matching steel window frames

IDEAL FOR

Main entrances · Independent houses · Utility areas · Window frames

WHY AMSIDEL

What you can *expect from us*

01

Measured on site

We visit, measure every opening and recommend the right system before you pay.

02

Made to measure

Frames are cut and assembled to your exact sizes, not adapted from stock.

03

Trained installers

Our own fitting team installs, seals and finishes, then cleans up after.

04

Clear quotations

Itemised prices for frames, glass, hardware and fitting. No surprises later.

05

Quality hardware

Locks, rollers and hinges matched to the weight and use of each door.

06

After-sales care

One call to us for adjustments or service, long after installation.

GET IN TOUCH

Book a free site visit

Tell us about your openings and we'll come back with options, a quotation and a time to measure.
